1. Getting Started

Welcome to TiffinBox

TiffinBox is a simple, powerful management system designed specifically for Indian tiffin service owners. It helps you manage customers, track daily deliveries, send menus via WhatsApp, and collect payments — all from one easy-to-use dashboard.

System Requirements

Requirement	Details
Device	Any smartphone, tablet, or computer
Browser	Chrome, Safari, Firefox, Edge (latest version)
Internet	Basic internet connection required
WhatsApp	WhatsApp Business account (for menu/bill sending)

Quick Setup in 4 Steps

Step 1 — Register	Go to tiffinbox.in and click "Start Free Trial". Enter your name, business name, mobile number and password. Your 30-day free trial starts immediately.
Step 2 — Add Customers	Go to Customers → Add Customer. Enter each customer's name, phone number, area, meal type (veg/non-veg), timing (lunch/dinner/both), and monthly price.
Step 3 — Create Daily Menu	Go to Daily Menu → Add Menu. Select the meal (breakfast/lunch/dinner), add items, and click Save. Then click "Send Now" to WhatsApp all customers.
Step 4 — Track & Bill	Mark deliveries daily using Today's Delivery page. At month-end, go to Billing → Generate Bills. Send bills to all customers via WhatsApp.

3. Managing Customers

Adding a New Customer

Navigate to Customers → Click "+ Add Customer" button → Fill in the form:

Customer Status Types

Active	Customer is currently receiving tiffin. Counted in daily delivery list.
Paused	Temporarily stopped (e.g. customer travelling). Not in delivery list but preserved.
Stopped	Service permanently ended. Customer data kept for records.

5. Daily Menu Management

Overview

The Daily Menu feature allows you to create breakfast, lunch, and dinner menus each day. Once created, you can send the menu to ALL active customers via WhatsApp with a single click. TiffinBox also supports auto-scheduling — menus are sent automatically 1 hour before each meal.

Meal Schedule & Auto-Send Times

Meal	Meal Time	WhatsApp Send Time	Emoji
Breakfast	8:00 AM	7:00 AM (1 hr before)	■
Lunch	1:00 PM	12:00 PM (1 hr before)	■■
Dinner	8:00 PM	7:00 PM (1 hr before)	■

How to Create a Menu

- 1. Go to **Daily Menu** from the sidebar
- 2. Select the date (defaults to today)
- 3. Click **" + Add Menu "** button
- 4. Choose the meal: Breakfast, Lunch, or Dinner
- 5. Use **Quick Add** buttons to add common items instantly
- 6. Or type a custom item name and click the **+ button**
- 7. Mark each item as **Veg (■)** or **Non-Veg (■)**
- 8. Add a **Special Note** if needed (e.g. "Festival special menu!")
- 9. Click **"Save Menu"**
- 10. Click **"Send Now"** to WhatsApp all customers immediately

6. Billing & Payments

How Billing Works

TiffinBox automatically calculates bills based on actual delivered days. You don't need to manually count or calculate — just mark deliveries daily and generate bills at month end.

Step-by-Step Billing Process

Step 1	Mark deliveries daily Throughout the month, mark each customer's delivery as Delivered, Skipped, or Holiday.
Step 2	Generate Bills At month-end go to Billing → select month/year → click "Generate Bills". Bills are auto-calculated.
Step 3	Review Bills Check each customer's bill — delivered days × price per day = total amount.
Step 4	Send via WhatsApp Click the WhatsApp button next to each bill, or "Send All Reminders" to message all pending.
Step 5	Record Payments When customer pays, click "Pay" → enter amount → select mode (Cash/UPI/Bank) → Save.

Bill Calculation Example

Customer	Monthly Price	Delivered Days	Price/Day	Bill Amount
Rajesh Kumar	₹1,500	24 days	₹58	₹1,392
Priya Sharma	₹1,200	26 days	₹46	₹1,196
Suresh Babu	₹1,800	20 days	₹69	₹1,380

Formula: Price per day = Monthly Price ÷ 26 working days

Why Upgrade to Premium?

■ WhatsApp Automation Saves 2+ Hours Daily

Instead of manually messaging each customer, one button sends to all. For 60 customers, this saves at least 30 minutes per meal, 1.5-2 hours per day, 45-60 hours per month!

■ Collect More Money Faster

Automated payment reminders sent to all unpaid customers at once. Studies show that automated reminders reduce outstanding dues by 40-60%. For a business with ■50,000 monthly billing, this could mean ■5,000-10,000 extra collected per month.

■ Build Customer Loyalty Through Menus

Customers who receive daily menus are 3x more likely to stay loyal. When customers know what's coming for lunch, they look forward to it. This builds emotional connection with your tiffin service.

■ Know Your Business Numbers

Revenue dashboard shows monthly trends, collection rates, and top customers. You'll know exactly how much you earn, who pays on time, and how your business is growing — all without maintaining any Excel sheets.

■ Auto-Schedule Never Forgets

Pro plan's auto-schedule sends menus automatically at the right time every day, even if you forget. Set it once and it works forever. Your customers always get their menu at the right time.

10. Tips & Best Practices

■ Mark Deliveries in the Morning	Open TiffinBox while packing tiffins. Mark as you pack — it takes only 2 minutes and keeps your records accurate.
■ Create Menu the Night Before	Decide tomorrow's menu in the evening and save it. Set auto-send so customers get it at the right time without you having to remember.
■ Generate Bills on the 1st of Each Month	Make it a habit — first thing on the 1st, generate bills. Send via WhatsApp immediately. Customers are more likely to pay when they receive the bill early.
■ Use Special Notes for Festivals	On Diwali, Pongal or Eid, add a special note like "Festival Special Menu! ■" — customers love the personal touch and it builds loyalty.
■ Follow Up Within 3 Days	For unpaid bills, send a WhatsApp reminder after 3 days. TiffinBox's "Send All Reminders" button does this for all customers at once.
■ Keep Customer Notes Updated	If a customer has dietary restrictions (no onion, no spice, diabetic diet) — add it in the Notes field. It prevents complaints and shows you care.
■ Check Dashboard Weekly	Every Sunday, spend 5 minutes on the dashboard. See if revenue is growing, who hasn't paid, and how many deliveries were made. Knowing your numbers = better business decisions.
